Important note for industrial customers with an own transport insurance:

Are you an industrial customer and got an own transport insurance?
Please contact us by E-Mail at info@intex-belgium.be. We will activate a separate feature that allows you to select the insurance coverage optional. For example: If your own insurance is able to cover an amount of 2.500 € for each shipment but the one, you want so send has a value about 5.000 €, you just have to choose the 2.500 € insurance coverage by BMI Bvba if you want to have your shipment fully insured.

Wählen Sie die Höhe der gewünschten Transportversicherung

Just a small hint: Many transport companies just provide liability insurance but no transport insurance. This means if your shipment gets lost and you are not able to prove serious organizational faults by the transport company itself the liability insurance doesn't take effect.

Now you can put your shipment into your Shopping Cart by clicking .
In the following mask you can choose to setup a new shipment or to finish your current order.

Please cut the consignment at the dotted line. The upper part needs to be placed into the transparent file bag which you can find right on the safe bag. The lower part is your valid receipt which you should let sign by the driver picking up your shipment.

To pick up your shipment the driver will have a safe bag with him.

The safe bag will be closed by the adhesive security closure.

If you are an industrial customer and want to place regular orders please contact us and ask for safe bags or adhesive security tape so we can provide a stock for your daily or weekly shipments.

- The delivery time will be principally at the next working day until 05:00pm at the latest if there was no special service booked additionally.

A flexible and reliable service is very important for us. If you have any questions we would like you to get in touch with Bruno Moens +32(0)3 227.55.65

We are looking forward to successful cooperation based on partnership
